

# Manners Enrich the Human-Animal Bond ~ Continue your journey toward a healthy, happy companion!

*Next Steps classes are created to teach owners how dogs learn. Knowing this, you can improve your training skills and establish an enriched lifelong relationship with your dog. Puppy Manners classes teach owners how to use positive, reward based training techniques to teach their puppies the skills needed to become a well-mannered companion their entire life.*

## Animal Medical Center *NEXT STEPS:* *PUPPY MANNERS* *CLASS*

BE a proactive parent and learn the skills you need to train your puppy to have polite household manners.

Learn positive, reward based training techniques that teach your puppy to:

- ◆ Sit/lie down
- ◆ Wait/stay
- ◆ Come when called
- ◆ Walk on a loose leash

Their Best  
Paws Forward

# Puppy Manners ~ The Next Step to the Perfect Puppy!

Our Puppy Manners course is taught using positive reinforcement training techniques. Skills, such as how to "set your puppy up for success," allow owners to train rather than complain. Behaviors covered in class include: sit, down, wait, stay, leave it, give, come when called, and loose leash walking. We introduce targeting, attention and focus games (to help your pup gain self-control), and the proper way to teach a trick.

Next Steps makes training fun and enjoyable for owners and their dog while giving them the tools needed to train their puppy to be a life long companion.

## General Information

Puppy Manners classes are for pups 16 weeks to one year of age at the start of class.

Class meets once a week for 6 weeks and each class is one hour long. Class size is limited to 6-8 pups, to ensure that all owners and their dogs get individual attention.

Call or email for class times and openings:

**610-489-8982**

**[sthompson@mypetdoc.com](mailto:sthompson@mypetdoc.com)**

All pups need proof of Rabies vaccination and must wear a flat buckle or snap collar. An easy walk harness or a gentle leader head collar are also acceptable.
